Eminent Domain -- Is This Legalized Stealing?

The actions and arrogance of Mr. Burzichelli should be condemned for trampling your constitutional right to own property. Despite the unanimous Supreme Court Ruling, Burzichelli says of the Gallenthin family farm "We'll get the land, one way or the other." Riley, his running mate, stands silent on the taking of farmers' and soldiers' land by force. Who will repay the Gallenthin family for their pain, suffering and legal costs to stop this theft? Who will pay the hundreds of thousands of dollars wasted on this fiasco? **YOU.**

Today it's the Gallenthins; tomorrow it's you.

BEWARE, Mr. Sweeney recently said, "If you have large tracts of land available, we're going to pursue them."

Thousands of Revolutionary War soldiers gave their lives to free us from the tyrants of England. Through their sacrifice, they gave us the freedoms we enjoy today. Now someone is trying to steal those freedoms! The tyrants have returned. Stop the Burzichelli's of the world by voting them out of office when they abuse eminent domain and hurt private citizens, soldiers and farmers.
