

Thomas Jefferson once cautioned "A democracy is nothing more than mob rule, where fifty-one percent of the people may take away the rights of the other forty-nine." I am one of the forty-nine percent who feel like I don't have a voice in Trenton. I write this letter to the editor in support of hard-working residents of New Jersey. For those who believe they are over-taxed and want to take action and do something about it.

Under the leadership of Governor John Corzine, State and County government has been a model of failure. State, county and local politicians fostered the tax and spend policies that put New Jersey taxpayers \$3 billion in debt. The current government at all levels has ruined the quality of life in the Garden State. Many families have to work two jobs to keep up with their taxes and keep their homes.

On November 3rd I will be voting for candidate Dr. Robert Villare for Assembly in the 3rd district as a republican. Robert Villare is one counted among the forty-nine percent, who will be a trusted voice for lower taxes. Robert Villare has a plan and it will start with the support for reducing the size of government and lowering property taxes. I know that everyday, people put their trust in Robert Villare to do right by them. People have literally trusted Robert Villare with their lives. Dr Robert Villare is a noted surgeon in Salem and Gloucester Counties. He knows the meaning of trust. With his experience and integrity, I know he will do what is best for all New Jersey citizens. We need new leadership and that is what Robert Villare represents.

"It is time for a new generation of leadership, to cope with new problems and new opportunities." John F. Kennedy.
